

NISZYME

for Grower/Finisher & Piglet

NISZYME

is a specially designed enzyme product based on diverse feed ingredients to pigs that no additional enzymes are needed. For grower/finisher, NISZYME puts up NSP enzymes with sufficient concentrations to break down feed. For piglet and nursery pig, amylase and protease are included to help immature GI track have better digestibility and absorption. Moreover, high concentration phytase is added to release phosphorus from phytate and to deduct inclusion level of inorganic phosphorus from the diet, which results in lowering cost and reducing environmental pollution.

main ingredients for piglet

Item	per kilo	target	unit
Protease	13200	supplement	unit
Amylase	116000	supplement	unit
Pectinase	300000	soy bean cake	unit
Phytase	1500000	phosphorus	unit
Hemicellulase	7200	soy bean cake & rice bran	unit
Xylanase	40000	wheat bran, soy bean cake, corn	unit
Other enzymes	600	enzyme	unit

✓ All xylanase used focus on soluble and insoluble xylan

main ingredients for grower/finisher

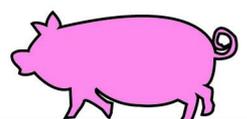

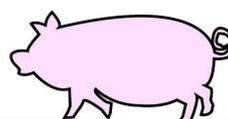

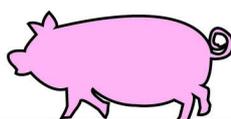

Item	per kilo	target	unit
Pectinase	500000	soy bean cake	unit
Phytase	1500000	phosphorus	unit
Amylase	100000	corn	unit
Hemicellulase	12000	soy beab cake & rice bran	unit
Xylanase	100000	wheat bran, soy bean cake, corn	unit
Other enzymes	1000		unit

✓ All xylanase used focus on soluble or insoluble xylan

Dosage / 0.25-0.5kg per ton feed

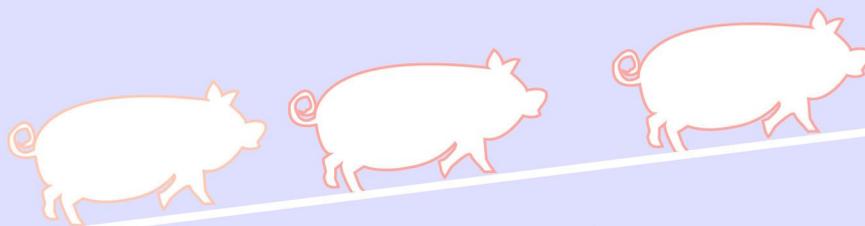

Storage / store in dry, cool place within 12 months

Packing / 25kg paper bag

NISZYME

for Grower/Finisher & Piglet

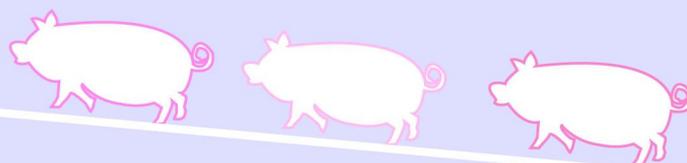

Suggested dosage & calcium/phosphorus deduction chart

Animal	/ ton feed	MCP	DCP	MCDP
Creapfeed/Starter	500 g	-4.95 kg	-7.63 kg	-5.95kg
Grower/Breeder	500 g	-5.94 kg	-9.16 kg	-7.14 kg

MCP(22% P, 15% Ca) ; DCP(18% P, 23% Ca) ; MDCP(21% P, 16.5% Ca)

✓ Refer to the chart above for deduction of phosphorus after Niszyme added

Special enzyme product for corn, soy bean cake, wheat bran, and rice bran diet.
